07/11/2017 - 00:00

The Istituto Comprensivo E. Ibsen <sup>[1]</sup> School in Casamicciola Terme (Naples) will participate in the Global Junior Challenge <sup>[2]</sup> with Project Robot Lab: Space Mission! <sup>[3]</sup> Coordinated by Professor Olimpia Amoruso.

Children and adolescents are fascinated by robots. They allow even the youngest students to explore the possibility of studying engineering or science. They promote multidisciplinary learning, collaboration and competition, whilst developing in the child the ability to analyse and solve issues, while learning how to programme.
